

Rosengrens Celinus

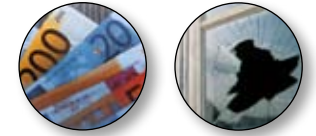

► Burglary protection solution for retail

Celinus is a range of certified modular doors and panels which can be built to create a security enclosure for retail outlets.

Provided the enclosure meets a minimum size, Celinus can be custom-built to meet your exact requirements.

Rosengrens Celinus

► Burglary protection of valuables

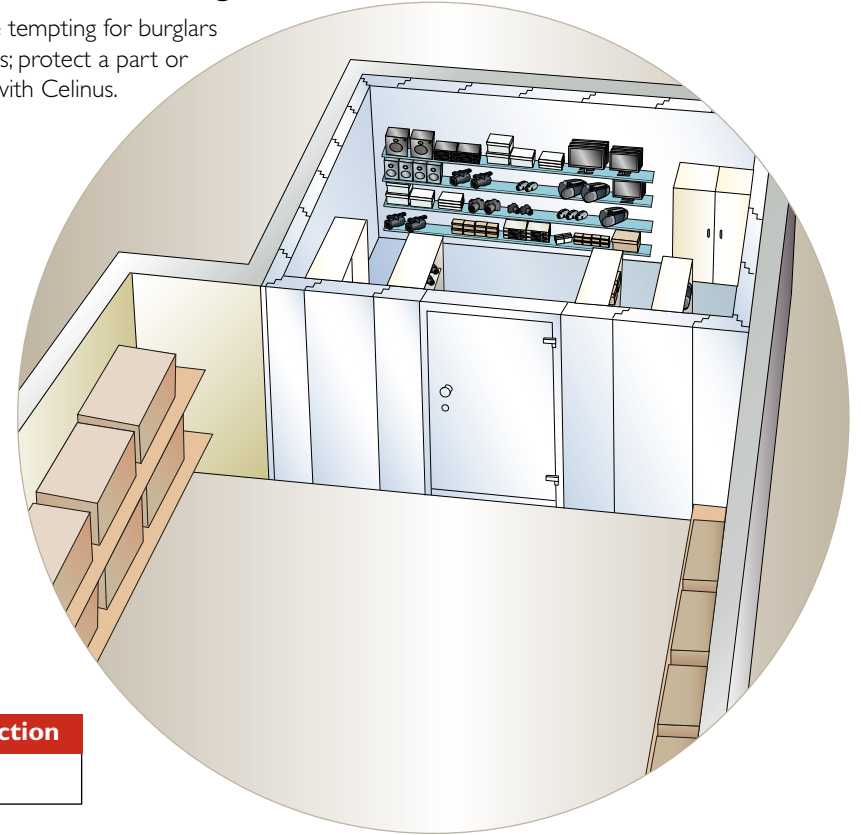

► Back office

Secure your back office area with Celinus and offer a reliable solution for cash-in-transit personnel.

► Secure storage of valuable goods

Some valuables may be tempting for burglars and seen as easy targets; protect a part or all of your warehouse with Celinus.
